3 Easy Steps
to Recycle Your Batteries

1.Tape the terminals

Cover the ends of your batteries with clear tape, especially t
contact points. This helps prevent sparks.

2.Find a location

Different batteries may need different return options.
Find a location: https://locator.batterynetwork.org/
DKMM Hazardous Waste Collection

3.Turn them in

Drop off your taped batteries at a local battery return site.

Tape Ends → Find Location → Turn In

Keep your family and community safe, never place batteries in recycling or waste. Visit BatterySafetyNow.org or scan the QR code to find a drop-off location near you.
